The Challenge

SMK TI Bazma wanted to make this account for sharing student creativity and school life. Every post is made to be easy to understand, nice to look at, and shows the unique style and personality of our students.

The Approach

I led the school publisher team a.k.a **Mention** to design the account. By using simple tools like Canva and Google Sheets, we made it easy for students to collaborate, share ideas, and learn by doing. Each post follows a clear visual style, while still allowing room for personal expression.

BAZMA

BAZMA is a foundation that built on the spirit of sharing and manages Zakat, Infaq, Waqf, and other social funds. It stays committed to adapting with the times by continuing its transformation, including a new, more inclusive name that reflects its role as a foundation for all.

The Challenge

BAZMA wants to revitalize its social media account, which has been less active, in order to boost engagement among teenagers. The main challenges are limited visual assets and a lack of regular updates.

The Approach

I led the team in producing simple, trend-driven content that's easy to consume and quick to create, with a strong focus on consistency and responsiveness.

Info Penting

Ayo jalani Jumat Berkah Dengan Sedekah

Allah SWT Berfirman:
"Perumpamaan orang-orang yang menginfakkan hartanya di jalan Allah adalah seperti sebutir biji yang menumbuhkan tujuh tangkai; pada setiap tangkai ada seratus biji. Dan Allah melipatgandakan (ganjaran) bagi siapa yang Dia kehendaki. Dan Allah Mahaluas, Maha Mengetahui."
(QS. Al-Baqarah: 261)
